230257 - TELESP - Space Telecommunications

Coordinating unit: 230 - ETSETB - Barcelona School of Telecommunications Engineering
Teaching unit: 739 - TSC - Department of Signal Theory and Communications
Academic year: 2018
Degree: BACHELOR'S DEGREE IN TELECOMMUNICATIONS SYSTEMS ENGINEERING (Syllabus 2010).
BACHELOR'S DEGREE IN TELECOMMUNICATIONS SCIENCE AND TECHNOLOGY (Syllabus 2010).
BACHELOR'S DEGREE IN TELECOMMUNICATIONS TECHNOLOGIES AND SERVICES ENGINEERING (Syllabus 2015).
ECTS credits: 6
Teaching languages: English

Teaching staff
Coordinator: Francesc Rey.
Others: Francesc Rey.

Opening hours
Timetable: This information will be provided during the first class.

Prior skills
Digital communications. RF circuits and techniques. Radio links and antennas.

Requirements

Teaching methodology
Lectures and proposed activities.

Learning objectives of the subject
To provide students with a good knowledge of the most widespread techniques used in satellite communications. Basic contents of the course are the following. Description of a space radio link and its power balance. Multiple access and packet radio techniques. VSAT systems. Satellite-based mobile communications systems.
230257 - TELESP - Space Telecommunications

## Content

### 1. Introduction

**Degree competences to which the content contributes:**
- **Description:**
  - Introduction to space communications

### 2. A study of the environment in space.

**Degree competences to which the content contributes:**
- **Description:**
  1. Introduction
  2. Orbital principles and orbits
  3. Limitations of the space communications
  4. Different orbits used in satellite communications
  5. Satellite launch

### 3. Payload.

**Degree competences to which the content contributes:**
- **Description:**
  1. Introduction to the satellite subsystems
  2. Payload description
    - 3.2.1 Transponder
    - 3.2.2 High Power Amplifier (non-linear HPA)
  3. Antenna subsystem

### 4. Satellite channel.

**Degree competences to which the content contributes:**
- **Description:**
  1. Propagation in free space conditions
  2. Atmospheric impairments
  3. Interferences
  4. Multipath in satellite systems (Land Mobile Satellite Channel)
  5. Noise in satellite communications

### 5. Link budget

**Degree competences to which the content contributes:**
### 5. PHY in satellite communications.

#### Degree competences to which the content contributes:

**Description:**
- 5.1 Propagation loss
  - 5.1.1 Transmission equation. PIRE
  - 5.1.2 Atmospheric gases attenuation
  - 5.1.3 Rain attenuation
- 5.2 Noise
  - 5.2.1 Temperature of antenna
  - 5.2.2 Atmospheric noise
  - 5.2.3 G/T factor
- 5.3 Link budget: some examples
- 5.4 Link budget in deep space communications

### 6. PHY in satellite communications.

#### Degree competences to which the content contributes:

**Description:**
- 6.1 Introduction to PHY Layer
- 6.2 Modulations (a satélite communications perspective)
- 6.3 Channel coding (a satélite communications perspective)

### 7. MAC in satellite communications.

#### Degree competences to which the content contributes:

**Description:**
- 7.1 Introduction to MAC techniques
- 7.2 FDMA / TDMA / CDMA
- 7.3 Random access techniques
- 7.4 Review of MAC techniques (a satellite communications perspective)

### 8. Networks and digital satellite services.

#### Degree competences to which the content contributes:
230257 - TELES - Space Telecommunications

**Description:**

8.1 Broadcast Satellite Services  
DVB-S, DVB-S2, DVH-SH  
8.2 Return link with satellite.  
DVB-RCS. Example Amheris.  
8.3 VSAT networks.  
VSAT link.  
8.4 Mobile Satellite Services (MSS)  
Examples: Inmarsat, Iridium, Globastar.  
8.5 IP satellite  
Examples Inmarsat BGAN and ASTRACoNect.

**Degree competences to which the content contributes:**

**Description:**

9.1 Recent and future ESA / NASA projects  
9.2 Satellite Laser Communications  
9.3 High Throughput Satellites (HTS)  
9.4 Deep Space Comunications

**Qualification system**

- Final examination: 50%  
- Continuous assessment: 40%  
- Proposed activities: 10%

**Regulations for carrying out activities**
